

PRELIMINARY SOILS INVESTIGATION

- * This is a PRELIMINARY SOILS INVESTIGATION. ADDITIONAL MORE DETAILED SOILS MAPPING IS REQUIRED FOR SEPTIC APPROVAL.
- * The "Dellrose-Humphreys" soils are generally Favorable with 45 + 60 mpi rates
- * The "Mountview-Sengtown" soils are generally Favorable and marginally Favorable with 60 + 75 mpi rates.
- * This tract will likely support a 4-5 Bedroom house. A backhoe would be needed to further investigate the "Mountview-Sengtown" soils
- * A conventional septic system is likely possible

Legend

- mpi - estimated minutes per inch
- O-H - Dellrose-Humphreys 0-25%
45-60 mpi
- M-S - Mountview Sengtown 0-25%
60-75 mpi
