

From Hwy 80 in Grand Saline, take Waldrip St going North. The road changes to numbers outside town, but you basically keep going on the same road out to the property. It will be CR1810 part of the way, then 1815. That road suddenly becomes CR1804 and makes a square around the 26AC. The gate to that tract is on the right as you enter that loop. Sign on gate.

For the 136.6AC, keep going and after the first right angle turn of the road, be looking for a sign on the gate on the left. The 26.4AC is encompassed inside the 3 sided turns of CR 1804. The 136.6 AC runs North of the road and is irregularly shaped.
