**3776 Taylors Store Road
Nashville, North Carolina**

This estate is rich in history with modern conveniences. This spacious 18th century style brick home was designed after the popular Gunston Hall in Lorton, Virginia, a place often frequented by George Washington during the colonist period. Building began nearly 20 years after purchasing the land and was aptly named "Clayland" Estate, a name given for the red and white clays in the earth surrounding the farmland.
