

Silver Lake Farm

355 acres of the most beautiful Virginia land imaginable located in Albemarle county just 15 minutes south of Charlottesville. As you enter the property you gaze across gently rolling verdant meadows, down to the fertile stream valley which is bisected by the flowing clear waters of a major stream. This ever flowing creek is fed by numerous springs and streams which emanate from the distant hills and mountains which form the Northeast and Northwest boundaries of the property. From the stream the land rises up through gradually rising meadows which are interspersed with small stands of hardwoods.

At the base of the Northwest mountain a glistening four acre lake fed by pure mountain springs is encircled by the wooded hills. Views of the mountains to the south can be appreciated from the vantage of a large plateau where a hand hewn log cabin can be found. To the east is a long stream valley, in which a large lake could be built to be appreciated from numerous elevated building sites. To the back of the property the land rises up to the encircling mountain ridge line which afford protection from winter winds and the possibilities of development. It is not possible to say enough about the wonderful qualities of this magnificent property, except to say that it is unequalled in beauty and grace in Piedmont Virginia.

Offered at \$2,990,000

Several pure mountain streams, emerging from springs at the mountain base, water the extent of the land and then flow into Cove Creek to further increase the supply of clear water. Several excellent sites for vineyard development can also be found throughout the property.

All of these structures sit in some of the most beautiful land in Albemarle County with glorious mountain views in every possible direction, an excellent mix of open and wooded land all of which is perfect for agriculture, recreation, hunting or pure unhindered, lay back in your hammock, enjoyment. Miles of trails allow for endless discovery of meadows, coves, forest enclaves or mountain top trails leading you back in time. If there ever is a time to start thinking about going back in time, it is now!
