

This aerial map shows a forested landscape with several distinct features and boundaries. A yellow rectangle highlights a specific area in the center-right. The map is overlaid with a grid of red lines, with some segments highlighted in orange. A blue dashed line follows a winding path, possibly a stream or a boundary. A white dashed line follows another path, possibly a road or a boundary. The map is labeled with numbers in red: 35, 36, 31, 2, 1, 6, 11, 12, and 7. Two roads are labeled: County Road 101 and County Road 5. The terrain is a mix of dark green forest and lighter green areas, possibly cleared land or different types of vegetation.
