

Gibson Realty & Land Company

This tract is a deer hunter's dream! 154 Acres of habitat specifically created to hold Big Bucks. The hardwood on this tract was manipulated to create thickets, browse and cover. And from the amount of tracts on the ground, it's working. Bayou Pierre runs along the eastern border and is full of fish for summertime fun. The roads, food plots and some stands are already in place. All this tract needs is a hunter!

Cline Road, Wesson
