3300' sq ft all log home with year-round creek

...plus a spring with water so pure that it does not have to be filtered! Currently is 1b/1b, but 2nd bed/bath ready-to-be-finished (could be more)! Current owners live here full-time, off the grid, with extensive, professionally installed solar system, propane, fireplace insert, propane heaters and back-up generator. This is a really nice set-up, which has been well-maintained but does need some simple finish work. No covenants or HOA's, here! The creek is truly awesome! Property has variable terrains, but unlike most mountain properties, it has a lot of flat and meadow, so could be fenced for horse, cattle, etc.
