### Broker Comments:

The Glad Valley Ranch would be a fantastic operation either in its entirety or in separate units. The combination of good Native grass to the great tame grasses compliment each other for maximum utilization. Combine the grass with the productive hayground and the tillable ground that is ready for Millet, Sorghum Sudan, Willow Creek Wheat, Corn, or various other varieties of hay or chopping feed stuffs create a property that could generate much more feed than the typical operation. If you are in the market for a great using ranch or just looking to add some property to your current holdings The Glad Valley Ranch needs to be on your short list.
