HOMES

Beautiful design elements are shared throughout the main and guest homes. The main home features two levels, with a private master suite and bath on each. The entry level is warm and inviting with its foyer, leading to the open living area. A stunning full-length stone wall incorporates the beauty of the natural elements with the living space and provides an impressive continuity between the kitchen, living area and central fireplace. Built-in wood shelving in the living area creates a lovely focal point as well as utility. The dining area seamlessly blends with the living area and kitchen, all of which is rich with the forested views and natural light. A charming Dutch door leads to a screened patio from which to enjoy the relaxing and fragrant mountain breeze. The open kitchen is defined by the dramatic stone backsplash, granite countertops and elegant Alder cabinetry. A large, walk-in

pantry provides extensive storage. A potable water reverse osmosis system is in place. An island, 6 burner gas range with griddle, convection and conventional ovens and overhead warmer make this space a chef's delight. The attached garage(s) on the entry level are fully finished, offering epoxy flooring and recessed lighting. The lower level of the main home hosts the second master suite and bath with a third 'craft' room that may be converted to additional bedroom space. The large bonus/living space hosts a billiard table and full wet bar with live edge granite countertops. Beautiful full-length windows and double doors allow in the views and light while providing access to the large Trex deck beyond. This space is aesthetically pleasing, private and functional; ideal for entertaining or a separate full-level suite for guests.

The 1200 esf guest home is host to equally impressive features. The private entrance leads to a welcoming and open floor plan, filled with beautiful Oak flooring, which lies in perfect contrast with the natural light. The kitchen also features granite countertops and a large walk-in pantry. A separate laundry area and attached garage make this suite complete. Two baths, a master suite and two sizeable living areas provide comfort as well as the impressive views enjoyed by the main home. A private Trex deck leads from the guest suite outside and makes for an ideal spot to enjoy the privacy and tranquility of the grounds, rich with native flora and fauna. This space is ideal for long-term guests and is rich with income potential as well!

Features

On the lower level of the home you will discover a large, finished and coveted space for any artisan! The large workshop offers extensive storage and work space as well as plumbing and excellent lighting; ideal for woodworking, an artists studio or a variety of other activities. Attached, with a separate entrance, is a substantial finished storage area. Both spaces are climate controlled and offer a wealth of opportunity for use! A separate garden room offers space and utility for all of your tools and materials. A lovely pebble-paved walking path leads from the work and storage spaces to the entry level drive of the home, making them easily accessible as well as private.
