Plant Species Observed on the Ginsbach Property (Now-Go-Away Ranch),
Kerr County Texas, 29 April 2010

Bill Carr, The Nature Conservancy of Texas

No plant list is ever complete, and this one includes only those species observed during a five-hour walk on 28 April 2010. Many more species could be added with additional effort, especially during other seasons. Scientific names and common names follow various sources listed in the references cited at the end of the list. Codes in nativity column: N = native to Texas; N-I = native to Texas but introduced (planted or seeded) here; N+ = endemic to (found only in) Texas; E = exotic, i.e., not native to Texas; E-I = exotic but occurring here only as a result of deliberate planting in wild (non- garden/landscape) habitats. Codes in Form column: A = aquatic; FA = annual forb; FAV = annual vine forb; FB = biennial forb; FP = perennial forb; FPV = perennial vine forb; GA = annual grass or grasslike plant; GP = perennial grass or grasslike plant; PP = perennial fern or fern ally; S = shrub; T = tree; WV = woody vine.
