

★ **OAK RIDGE RANCH** ★
TRACT B

BEAUTIFUL HILL COUNTRY ACRES
Mullin, Texas • 102.44± Acres • \$373,906

OVERVIEW

Oak Ridge Ranches includes 825.9 acres, divided into 10 ranches. County road frontage is present on both sides of the property, County Road 199 at the northern border of the property and County Road 189 on the eastern edge of the property. The site is 13 minutes north of Goldthwaite Texas, one hour and 40 minutes from Austin Texas, and two hours and 30 minutes south of Fort Worth Texas. Access to the property sites, Tracts (E, F, G, H, I, J) includes utilizing the existing County Road 189 frontage as well as the construction of a new 4000 ft private road within a dedicated, surveyed 60 foot easement. Access to Tracts (A, B, C, D) is off County Road 199 and 2400 linear ft of new private road also within a 60 foot easement.

DETAILS

The topography includes areas of 100 feet of elevation change or rolling terrain. There exists an interesting combination of cover including large Live Oak trees, Pecan trees, and Cedar trees scattered throughout the ranches. Pompey Creek, a seasonal creek which extends over 1 mile, meanders throughout the property and provides cover for many types of wildlife including Whitetail deer, turkey, hogs, and doves. Impounding water at multiple sites along the creek is possible. Over 70 acres of fenced small grain pastures could attract many species of wildlife and game birds. The pastures could be available for custom farming. Many excellent building sites are located throughout the property with stunning views of the surrounding ranches.

Five ponds are located on Oak Ridge Ranches which provide both scenic and recreational value to the property. Other sites could be developed into ponds. Landowners may receive valuable input from the Noble Research Institute regarding pond management, pasture management, stocking rates as well as flora and fauna management, at no fee to the landowner. Relatively shallow water wells are common in this area. One well, currently on tract G, delivers 15 gallons per minute to the property owner and appears to be potable water. Owners could utilize numerous well drillers including F&F Water Well Drilling in DeLeon Texas to construct efficient wells that could be utilized for consumption or to supplement the water level in existing ponds.

Electricity was made available to all 10 properties on Oak Ridge Ranches.

Power is provided by Comanche Electric Cooperative. A fee is charged the property owner by Comanche Electric for the transformer and whatever length of wire may be needed to go from where power touches every ranch, to where power will be used. High-speed, buried fiber optic cable is also available to every ranch by Central Texas Telephone Cooperative.

Deed restrictions and a road maintenance agreement are attached to the property, which are not meant to violate the premise of country living. However, they serve to protect the investment of the individual ranch owner. **Ask about our fencing allowance**, which will be discussed on each individual Oak Ridge Ranch. The property owner has filed a wildlife exemption in the spring of 2020 on the entire 825 acres. Each individual ranch owner can decide whether or not they would be inclined to maintain an Agricultural exemption, or file a wildlife exemption, regarding their specific property tax abatement.

HISTORY

The property has been in the same family for over three generations. The previous owner's father was born on historical homesite located along Pompey Creek on Tract C. The site includes a windmill, cistern, and a rock cellar. Another historical homesite is present on Tract G. Wildlife includes Whitetail deer, hogs, small game, doves, and turkey. The property is currently not leased to hunters. A zip slide, treehouse, and numerous majestic Live Oaks are located near a pond on the far Northwest section of the property which could be easily improved for recreational enjoyment (Lot A). Another pond is on the Northeast corner of (Lot B). Two ponds are located on Tract F and one on Tract H. The property is low fenced and each tract is partially fenced. Stop by. We would love to give you a tour.

An aerial photograph of a rural landscape. In the foreground, a calm pond reflects the sky. A dirt road runs diagonally across the middle ground. The surrounding area is covered in green grass and scattered trees. The sky is overcast.

TRACT B

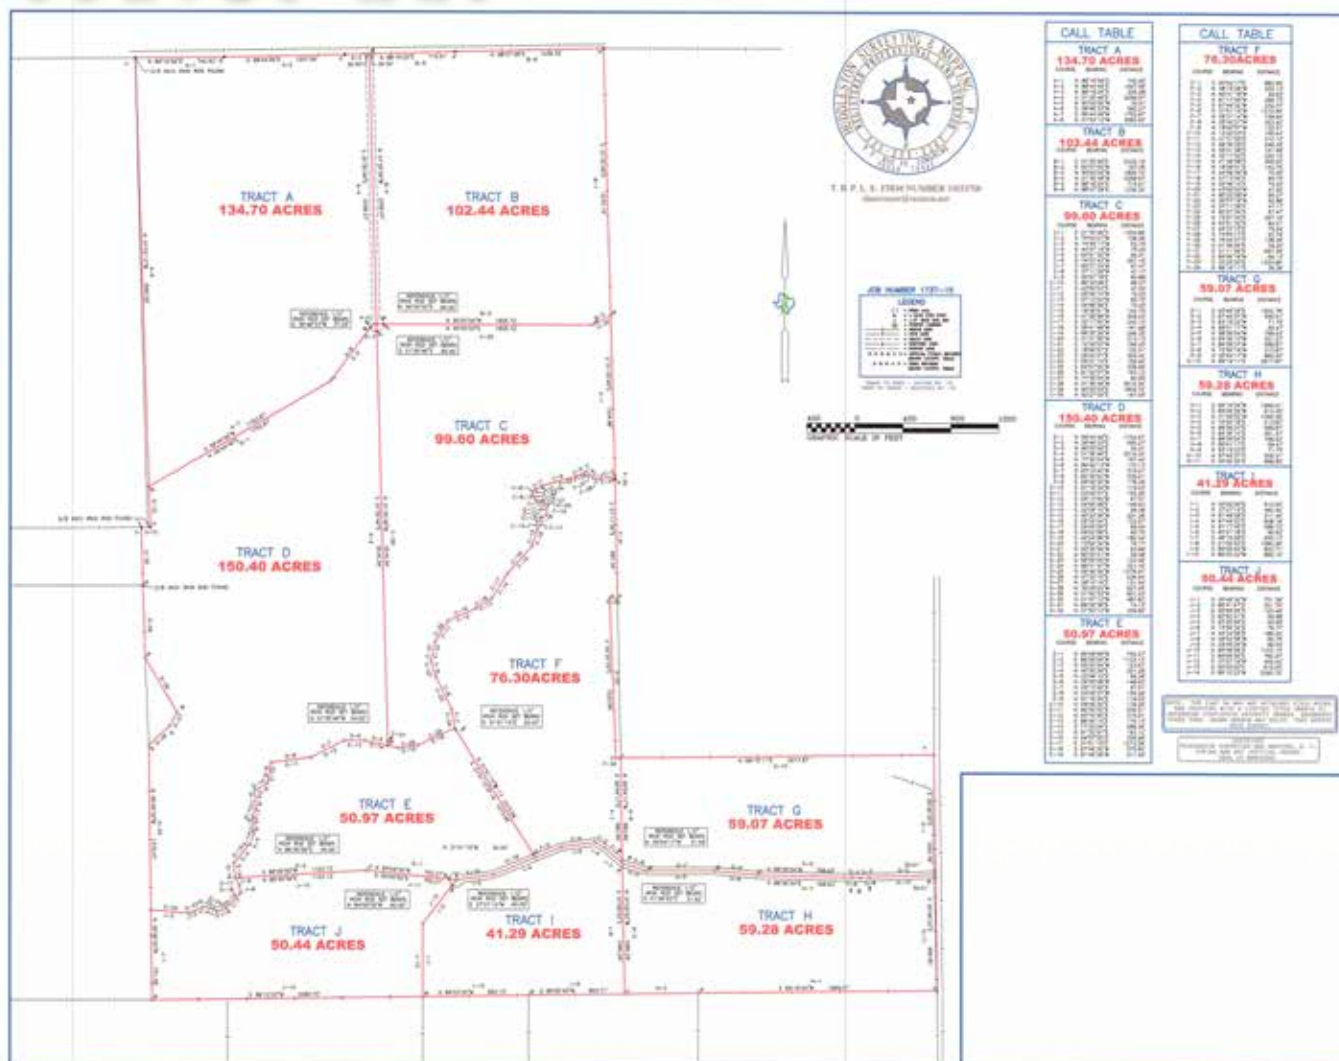

Tract B consists of 102.44 acres. A clear three-quarter acre pond is located on the northeast section of the property. The pond has held water for over 60 years and has never been cleaned out. Building sites are present at the existing pond site as well as on the south end of the ranch. Electricity, provided by Comanche Electric Co-Op touches every lot. However, the southern building site is close to power, decreasing the price of electricity to the property owner. Buried fiber optic Internet cable is available by Central Texas telephone if needed. A watershed exists near the southern building site which has been evaluated as to the acreage of a drainage area that could support a new pond. A soil profile recently completed by the owner could support a new pond. Existing live Oaks were trimmed at the southern site. As noted on Tract A, changes in topography are present throughout Tract B. In the far northeast corner of the property you will find a locked gate which provides access to the property. Another option for access would be the private road constructed through the ranch if so desired. The property is fenced on two sides, however, **please inquire about a \$6000 fencing allowance** allocated to this tract. This could complete the required fencing, which is approximately 3,160 feet and would be credited at closing to the buyer. Excellent native grasses exist on the ranch. Deed restrictions and a road maintenance agreement are available on all Oak Ridge Ranches. The Noble Research Institute in Ardmore, Oklahoma is available for management advice at no cost to the ranch owner. The individual ranch owner can select either wildlife or agricultural property tax exemptions as they apply for an exemption after closing. In the spring of 2020, the property owner filed a wildlife exemption on the entire 825 acres We encourage you to visit Oak Ridge Ranches to see for yourself the serenity, beauty and quiet of this little slice of the Hill County.

★ WHO WE ARE ★

Our organization got its start in 2011 when our founders, Drew Colvin and Mike Bacon, partnered to form a real estate company that prided itself on honest knowledge and reliable expertise. We've grown since then, but we remain true to those roots of exceptional personal service, integrity, experience and professionalism.

Unlike some larger companies, we specialize in large ranch properties and residential land, so that all our knowledge, expertise, and assistance is relevant and useful for the property you are selling. Together, we have over 58 years of industry experience. If you're looking for quality work by specialized, knowledgeable brokers, look no further than us.

With a sale of this kind, you need a compassionate, professional and accessible team available when you need them. Because we are a small company, we take the time to truly understand our customers' needs and create a plan that takes all aspects of the sale into our capable consideration—from inspecting the property and analyzing data to applying our knowledge to your philanthropic needs.

NO ONE WILL DO MORE TO SELL YOUR PROPERTY THAN US.

Information About Brokerage Services

Texas law requires all real estate license holders to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

TYPES OF REAL ESTATE LICENSE HOLDERS:

- A **BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- A **SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all others, including the broker's own interests;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

AS AGENT FOR BUYER/TENANT: The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH - INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of *each party* to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
 - that the owner will accept a price less than the written asking price;
 - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
 - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.
