# MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24.000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service Web Soil Survey URL:

Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Upshur and Gregg Counties, Texas Survey Area Data: Version 17, Jun 11, 2020

Soil map units are labeled (as space allows) for map scales 1:50.000 or larger.

Date(s) aerial images were photographed: Dec 4, 2019—Dec 12, 2019

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

# **Map Unit Legend**

| Map Unit Symbol             | Map Unit Name  | Acres in AOI | Percent of AOI |
|-----------------------------|--|--------------|----------------|
| ВоС                         | Bowie fine sandy loam, 1 to 5 percent slopes                     | 66.3         | 39.2%          |
| ВуС                         | Briley loamy fine sand, 1 to 5 percent slopes                    | 7.7          | 4.6%           |
| CbE                         | Cuthbert fine sandy loam, 8 to 25 percent slopes                 | 44.6         | 26.4%          |
| ErC                         | Elrose fine sandy loam, 2 to 5 percent slopes                    | 18.4         | 10.9%          |
| lu                          | lulus fine sandy loam, 0 to 1 percent slopes, frequently flooded | 2.2          | 1.3%           |
| KgC                         | Kirvin gravelly fine sandy loam,<br>2 to 8 percent slopes        | 21.0         | 12.4%          |
| LbC                         | Lilbert loamy fine sand, 2 to 5 percent slopes                   | 8.8          | 5.2%           |
| Totals for Area of Interest |  | 169.1        | 100.0%         |
