- ZONE:** County of Inyo OS40 zoning includes various land-uses including hunting and fishing preserves (resort lodge concept), various agricultural uses, home sites and solar-energy production. **BUYER TO VERIFY ZONING AND THAT IT WILL ALLOW BUYER'S INTENDED USE.**
- UTILITIES:** Water logically would be provided by a new well (neighbor has a productive-well). Sewer is likely through a private septic or special-processing system. Power may be provided by solar/wind energy methods although grid-power exists in the area. Propane is the likely gas source. **BUYER TO VERIFY ALL UTILITIES RELATED TO BUYER'S INTENDED USE.**
- MISC.** We think of this as a multi-generational investment! Utilize the site to match the buyer's objectives and preferences. At one time a residential subdivision was contemplated, however let your imagination run wild; the site is one of a kind! Possible uses include:
- Consider building solar and/or wind-generated power for your on-site needs; perhaps sell-excess energy to the "grid" via nearby LADWP or SCE sub-stations and transmission lines.
 - An exclusive health/Zen life-style lodge; i.e. Amangiri resort in Utah ([Amangiri](#)). You may choose to explore many new resort-styles for the site.
 - A private hunting/fishing/rock climbing club or resort. Skeet and trap range.
 - An exclusively private estate, artist's/author's personal retreat, gentlemen's ranch or equestrian facility with helicopter pad.
 - Build a personal observatory for stargazing and celestial photography of the spectacular-night sky.
 - A unique religious retreat, learning and/or meditation center.
 - Establish a wine-grape vineyard (Bishop presently has a high-altitude vineyard as an example).
 - Consider a tax-advantageous conservation easement or sale transaction on the portion of the Property you do not use. KLC does not provide tax-advice, **BUYER MUST OBTAIN INDEPENDENT TAX ADVICE & COUNSEL.**
- PRICE:** Asking price is less than \$10,000 per acre @ \$ 5,990,000. Motivated Seller – Make an Offer!
