

## 5.1. Establishment of districts.

In order to regulate and restrict the height, number of stories and size of buildings or structures, the percentage of lots that may be occupied, the size of yards, courts and other open spaces, the density of population and the location and use of buildings, structures, and land use. The City of Atmore shall establish zoning use districts based on the following use classifications or variations thereof:

- 5.11 *R-1, Low Density Residential District.* This district is provided to afford the opportunity for the choice of a low density residential environment consisting of single-family homes on large lots.
- 5.12 *R-2, Medium Density Residential District.* The purpose of this district is to provide for medium density residential developments in single-family and duplex structures on medium sized lots.
- 5.13 *R-3, High Density Residential District.* The intent of this district is to provide the opportunity for high density, single-family, duplex and multi family residential development, including mobile homes meeting lot size requirements.
- 5.14 *B-1 Local Business District*. This district is intended to provide for limited retail convenience goods and personal service establishments in residential neighborhoods and to encourage the concentration of these uses in one location for each residential neighborhood rather than in scattered sites occupied by individual shops throughout a neighborhood.
- 5.15 **B-2 General Business District.** This district is intended to provide opportunity for activities causing noise and heavy traffic, not considered compatible in the more restrictive business district. These uses also serve a regional as well as a local market and require location in proximity to major transportation routes. Recreational vehicle parks, very light production and processing activities are included.
- 5.16 *M-1 Light Industrial District*. The purpose of this Light Industrial District is to provide a suitable protected environment for manufacturing, research and wholesale establishments which are clean, quiet and free of hazardous or objectionable emissions, and generate little industrial traffic. Locations should be in accordance with the City's Comprehensive Plan.
- 5.17 M-2 General Industrial District. The purpose of this General Industrial District is to provide a suitable environment for manufacturing activities. These districts are located for convenient access from existing and future arterial thoroughfares, highways and railway lines, and are in many instances separated from residential areas by business or light industrial areas or by natural barriers; where they are adjacent to residential areas, some type of artificial separation may be required. The district regulations are designed to permit the development of the district for almost any industrial uses, subject to the minimum regulations necessary for the mutual protection of the uses.
- 5.18 *DBD Downtown Business District*. The purpose of this district is to establish uses compatible with a vibrant commercial and retail center and a downtown area suitable for restaurants and family friendly entertainment. Uses which are not compatible with this purpose are restricted to other areas of the city.

(Ord. No. 02-2006, 4-24-2006; Ord. No. 05-2007, § 2, 10-22-2007; Ord. No. 02-2014, § 1, 4-21-2014)

## 6.1. General.

The following limitations and requirements are placed on uses in each district established under the authority of this ordinance, in accordance with the intent of the ordinance.

Any use requiring a building permit is subject to review and permit approval by the building official.

Created: 2021-05-29 22:22:58 [EST]

Any special exception is subject to approval of the Board of Adjustment. Each application to the Board of Adjustment for approval of a use permitted by special exception shall be accompanied by a site plan prepared by the applicant or his agent.

In any case where a requested use is not specifically listed in the Table of Permitted Uses section of this ordinance, its status shall be determined by the Board of Adjustment by reference to the most clearly analogous use or uses that are specifically referred to in the Table of Permitted Uses. When the status of a use has been so determined by the Board of Adjustment, such determination shall thereafter have general application to all uses of the same type.

In general, any higher use may be permitted as a Special Exception in a lower use district, but no lower use shall be permitted in a higher use district, except as otherwise noted in the Table of Permitted Uses or where such use exists at the time of enactment of this ordinance, in which case it is subject to the requirements of the Nonconformance section of this ordinance.

Every use in any district, except in the M-1 and M-2 districts, shall be conducted entirely within a completely enclosed structure unless expressly exempted from enclosure requirements in this ordinance by Special Exception or as may be otherwise allowed by this ordinance.

It shall be the responsibility of the owner/developer to show (prove) compliance with the requirements of this ordinance.

(Ord. No. 02-2014, § 2, 4-21-2014)

## 6.2. Permitted uses and conditions.

Permitted uses are listed in the permitted use table of this article.

- 6.21 *Uses by right.* Uses in the tables identified by (R) are permitted by right, subject to the conditions specified in the tables or elsewhere in this ordinance.
- 6.22 Special exceptions—conditional uses. Uses in the tables identified by (S) require approval by the board of adjustment pursuant to Code of Alabama § 11-52-80. These uses are generally compatible within a designated district but because of their nature must be reviewed and approved before a building permit is issued.
- 6.23 *Variances*. Variances from the terms of the Zoning Ordinance may be granted by the board of adjustment in conformity with Code of Alabama § 11-52-80.
- 6.24 *Compliance with district requirements.* Except for approved variances and special exceptions, any use must comply with the requirements of the district in which it is located unless approved under the Planned Unit Development (PUD) provisions of the Subdivision Ordinance.
  - 6.241 Other provisions of this ordinance notwithstanding, any tracts of farmland under cultivation or pastureland and timberland presently being used for such purposes may continue to be used for such purposes regardless of the zoning district in which they may be located.
  - 6.242 Undeveloped land or land used for agricultural purposes or timber growing shall automatically be rezoned for single-family use.
- 6.25 *Uses prohibited.* Where any use or analogous use has blank spaces under any zones listed in the headings of the tables of permitted uses, such use is specifically prohibited in such zones.
- 6.26 *Group homes.* Any provision of this ordinance notwithstanding, the provisions of Code of Alabama § 11-52-75.1 shall apply to any application for a group home. Any provision of this ordinance notwithstanding, any federal law or regulation regulating or permitting a group home shall apply to any application for a group home.
