

## Directions to Fall Creek 80.

- 1). Go northerly 12.5 miles from Mt. Vernon on Highway 395.
- 2). At 0.8 mile past milepost 105B, turn left off 395 onto FS 3950.

- 3). Go 1 mile and turn left onto FS 3955.

- 4). Go 0.7 mile and turn left onto FS 298.

- 5). Go 5.2 miles and turn a hard 90 left onto old FS 112.

Do not go straight onto FS 254 between two downed logs.

- 6). Shortly after the 90 you'll come to a closed bar gate; go around it on the left.

Then go 0.5 mile to a **LOCKED METAL GATE** (above) where you'll enter the west side of the 80. **CALL FOR COMBO BEFOREHAND!**

- 7). See the pink flagging just behind the gate on west boundary. Then drive 250 yards to pink flags on south boundary.

- 8). 100 feet above those south flags is a section corner metal monument (the SW corner of 80). The FS has yellow metal "Property Boundary" signs on T-posts about every 50 yards all around the 80.

- 9). There is also a 1/4 corner monument at the NW corner of the 80.

- 10). When you leave it is critical that you lock the shank of the combo lock **ONLY** through the shank of the other padlock. **NOT** thru any links of the chain around the post. Thanks.
