back deck and watch Mother Nature and your critters enjoy the large backyard and pasture. The woods are enough to entice wild life to cross through and provide a nice nature hike.

Do you have a little homesteader in you? Prepare to preserve apples, pears, blackberries, strawberries, and whatever vegetables you want in the prepared garden area. Several outbuildings and a concrete floor shop provide lots of storage, and the livestock can access the pasture, shelter, or the barn. The entire perimeter of the property is fenced and cross-fenced, along with some pipe pens. For horse lovers, the barn has three nice oak stalls and a good size tack/grain room. One of the stalls has been converted to a 2-part kennel with 50-foot runs. Numerous flower beds provide season long color around the house.

The house is well-maintained and smoke-free. The roof was recently replaced, and several new energy-efficient windows were installed in 2023. The main floor has two bedrooms, a full bath, and a large kitchen with a breakfast bar overlooking the pasture. The lower level includes a full bath, loads of shelving to store your canned goods, and even a nice-sized storage room that can be used as a gun vault, safe room, or office. There is also extra sleeping space and a possible kitchenette or bar.

County water is accessible, or the well offers great pressure, and you can take your pick of propane or wood heat. The new Generac generator will kick in if the power fails, so you are not in the dark.

If you wish to live the farm life or own a country retreat for the family, this unique and wonderful property awaits you!
