Re: Property: 20305 Highway M

Curryville, MO 63339

Borrower: Bomke, Kraig E. & Pat S.

File No.: 24-08-05

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of this appraisal is to estimate the market value of the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The value conclusions reported are as of the effective date stated in the body of the report and contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely of Miles

Uniform Residential Appraisal Report

File # 24-08-05

The intended user of this appraisal report is the lender/client. The intender		
making mortgage finance decisions, subject to the stated scope of work, p	ourpose of the appraisal, reporting requirements of this appraisal rep	ort
form, and definition of market value. No additional intended users are ider	tified by the appraiser	
ionn, and dominion of market value. We additional interface above are faci	and by the appraison.	
FIRREA Certification Statement:		
The appraiser certifies and agrees that this appraisal was prepared in acc	ordance with the requirements of Title XI of the Financial institutions	3
Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended	12 0.5.6. 331 et seq.) and any applicable implementing regulations	s In
effect at the time the appraiser signs the appraisal certification.		
This appraisal has been propored in conformity with the code of athics of	he National Association of Indopendent Fee Approisars, and the	
This appraisal has been prepared in conformity with the code of ethics of		_
Uniform Standards of Professional Appraisal Practice as promulgated by t	he Appraiser Foundation. The National Association of Independent f	Fee
Appraiser has a mandatory program of continuing education for designate	d members. I have successfully completed this program for the cycle	le
ending June 30, 2026.		
chang danc 50, 2020.		
Appraiser Notes		
The appraiser utilizes his personal photo database and MLS database pho	otos to incorporate in the appraisal report. Typically the appraiser wil	II
select the photo of the comparable photo that best represents the compar	able that is free of obstructions and/or people.	
The appraiser searched for similar design residences located within the su	bject neighborhood and utilized sales that were deemed the most	
comparable within the general area.	and a substitution and a substitution of a substitution and a substitu	
comparable within the general area.		
Appraisal Notes; Subject property has 3 utility sheds that have window un	its and space heat available with interior finishes. Each utility shed	
	•	
provides a use for the property. The subject machine shed has a interior v		
insulated, and concrete finished floor. Subject airplane hanger interior finished	sh include; electric, insulated, and concrete floor.	
Subject SFR is a custome built home that has been well maintaned and u	odated.

Freddie Mac Form 70 March 2005

UAD Version 9/2011

Page 3 of 6

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Freddie Mac Form 70 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Freddie Mac Form 70 March 2005

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

Supplemental Addendum

Subject:

The property parcel is located in Curryville that is associated Pike county. Residences in the area are a mix of; ranch/rambler, and 1.5 story bi-level, style residences of Q3 quality construction. Overall property maintenance appears to be average.

Neighborhood:

Research indicates there is an equal supply of available housing in the immediate area that meets current demand. Marketing time for the area is predominantly 0-3 months. No loan discounts, interests buy downs, or concessions currently exists that would negatively affect marketability of the subject property.

Present land use % Other (34%) is recreational and/or flood plain property.

The predominant value as stated on page 1 of this appraisal is approximately \$490,000, however, it should be noted that this range of value applies to the subject's immediate marketing area and that homes within this range are inferior in terms of GLA, age, quality of construction, appeal, and utility. Consequently, the appraised value is above the predominant value. Subject property is not considered to be over-improved for the area.

Neighborhood Description:

The area offers adequate access to most residential services, local shopping, schools, parks, highways, and employment centers. There are presently no proposed or anticipated changes in the subject's land use, which is single family residential.

The subject property lies within a **rural** area that consists of diverse built homes on private parcels. The subject is in the central area of **Pike** county. No adverse conditions were observed that would negatively affect the subject's marketability. Commercial properties located are used to support the residential properties in the area and are not considered to be a detriment to the value or have an adverse influence on the marketability of the subject.

Site

A boundary survey showing the exact land size was not made available. The amount of land area was obtained from sources deemed to be reliable and is approximate. Lack of a survey prevents the appraiser from verifying that no adverse easements, encroachments, or other similar items exist on the subject site. This report assumes that none exist. However, the appraiser accepts no responsibility for detrimental conditions which a survey of title search may reveal.

The appraiser is unaware of any anticipated public of private improvements located on or off the site affecting the subject property in an unfavorable manner.

Highest & Best Use - The relevant legal, physical, and economic factors were analyzed to the extent necessary and resulted in a conclusion that the current use of the subject property is the highest and best use [USPAP – Standards Rule 2-2(b)(x)].

Improvements:

The subject property was in **C3** condition (please refer to **C3** for detailed description of condition and quality rating usage in the appraisal report.). The condition, quality of materials utilized, and the amenities present would be acceptable and consistent with that typically found in other homes in this market area. Functional utility was limited (no electric/plumbing) with adequately size rooms, ample closet space, and an efficient floor plan.

Curryville	County Pike	State MO Zip Code 63339

Comments on Sales Comparison:

Comparable selection criteria - In searching for comparable the appraiser has emphasized recent sales, location, lot size, gross living area, utility, design, age, and condition. It should be noted that research of the subject marketing area/neighborhood indicates a wide range of value for homes that appear to be similar in terms of physical characteristics (i.e. Foundation, GLA, lot size, etc.) It should be noted that homes of this nature are typically similar style homes that vary significantly in terms of renovations, upgrades, and condition. Consequently, cost to build and/or sales prices can vary significantly. The appraiser made a concentrated effort to avoid comparable that could have been tainted by mortgage fraud pertaining to the most recent transfer. All comparable utilized were verified with FMLS/MLS listings. It should be noted that by utilizing listing services the appraiser can determine (with some degree of accuracy) the circumstances surrounding the transaction. It is in the opinion of the appraiser that to accurately determine the market value of the subject, that the appraiser utilize homes not subject to artificial influences that might result from investor activity/mortgage fraud. Consequently, the appraiser made a concentrated effort to utilize comparable that; Do not exhibit multiple deed transfers. (Not always possible given the current market conditions) When possible utilize only comparable that were given proper exposure to the market via a traditional listing service (i.e.FMLS, MLS) Utilize comparable that can be verified via independent traditional data sources (i.e. FMLS, MLS, deed transfer, etc.) and avoid unverifiable data that may have been provided by an interested third party such as a buyer, seller, agent, etc. Please note that due to the criteria applied by the appraiser, the pool of potential comparable available for use were limited furthermore, sales that may be situated in closer proximity to the subject than the comparable utilized may have been excluded to select the most appropriate comparable available at the time of inspection. By applying the criteria that appraiser is attempting to ensure that comparable utilized support the opinion of value, that buyers and sellers were typically motivated and acting in their own interest: well informed or well advised parties: reasonable and customary market exposure: and a price representing normal consideration unaffected by special or creative financing or sales concessions.

Proximity to Subject:

Borrower

City

Property Address

Lender/Client

HNB National Bank

Curryville

Subject property is in a rural area, therefore the appraiser expanded his search to 26.00 miles of the subject property. Search criteria included properties that were within a 25.25 +/- mile radius of the subject property yielded 3 sales that were deemed a liable comparison for similarities in: location, site, design, quality of construction, condition, room count, functional utility, and energy efficient items.

All adjustments utilized in the sales comparison analysis are market derived.

Date of Sale/Time:

Per the information supplied to the appraiser, the comparable selected have all closing dates within the past 15 months.

The reasonable exposure time for the subject property is estimated at 0-90 days, assuming a competent marketing effort at a list price not to exceed 110% of market value."

Location:

Subject property is neutral, with single family residential views. The appraiser sought out comparable properties that have similar location characteristics.

Site:

Please note that the subject is located on 14.00 acres Within this market, the subject's acreage represents a significant, positive component of the subject's marketability and appeals to a specific potential pool of buyers. The appraiser made concentrated effort to locate and/or utilize homes similar in terms of acreage to demonstrate the marketability of homes like the subject in this regard. All comparable utilized are situated on similar parcels.

File No	. 24-	-80	05
---------	-------	-----	----

Borrower	Bomke, Kraig E. & Pat S.							
Property Address	20305 Highway M							
City	Curryville	County	Pike	State	МО	Zip Code	63339	
Lender/Client	HNB National Bank							

View:

Subject view is neutral with pastoral views, selected comparable properties are also considered to be neutral with residential views.

Design (Style):

Subject property is a proposed 1.5 story **Bi-Level** style home.

Quality of Construction:

The appraiser selects from a list of ratings that can be found in the appraisal report (*Uniform Appraisal Data Set (UAD) Definitions Addendum*) to further define the rating giving to the subject property and/or comparable property.

Actual Age:

Subject property built date is 2005 per Pike county records.

Condition:

The appraiser selects from a list of ratings that can be found in the appraisal report (*Uniform Appraisal Data Set (UAD) Definitions Addendum*) to further define the rating giving to the subject property and/or comparable property.

It should note that the appraiser considered numerous sales within the defined neighborhood. The appraiser noted sales in various states of condition with many in need of repairs and/or significant renovations. In comparable selection, the appraiser made a concentrated effort to locate and select homes similar in terms of physical characteristics and condition. Due to UAD requirements the appraiser is forced to differentiate between Condition and the Quality of Construction. In addition, UAD mandates that condition and quality rating are to be reported on an "absolute" basis and not have a "relative" basis. Consequently, in some cases, the appraiser must adjust comparable that have the same rating due to minor differences in terms of the overall condition or quality from one comparable to the next. The appraiser has assessed the features and condition using FMLS/MLS listings, interior photos, exterior inspections and in some cases, realtor interviews.

Room Count Comment:

An adjustment is made for iniquities in the number of bathrooms between the subject and comparable sales. Where possible, variations in bedroom count are accounted for in the "Gross Living Area Adjustment" section.

Gross Living Area Adjustment Comments:

A price per square foot adjustment based on replacement cost is made to each of the comparable sales to compensate for differences in total living area above grade.

Functional Utility Comment:

Subject property is connected to public water and private sewer system.

Heating/Cooling:

Subject property heating/cooling system is FWA and central air.

Please note that the subject features "standard" energy efficient items (i.e. attic insulation, energy efficient appliances, etc.) Within the subject's market most homes feature similar energy efficient characteristics. Due to the scarcity of data detailing energy efficient items within traditional data sources (i.e. FMLS, MLS, etc.) the appraiser has made an extraordinary assumption that the comparable are similar in this regard. Unless the subject or comparable features a non-traditional, superior/inferior energy efficient characteristic (i.e. solar panels, earth craft home, etc.), then energy efficient items have been noted as standard.

Borrower	Bomke, Kraig E. & Pat S.								
Property Address	20305 Highway M								
City	Curryville	County	Pike	State	M	O	Zip Code	63339	
Lender/Client	HNB National Bank								

Net/Gross Adjustments:

Each comparable sale that is used in the sales comparison approach to value was analyzed for differences and similarities between it and the property that is being appraised. The appraiser based his analysis and any adjustments to the comparable sales on the market data for the neighborhood and for competing locations-not on predetermined or assumed dollar adjustments.

The subject property is always considered as the standard against which the comparable sales are evaluated and adjusted. Thus, if an item in the comparable property is superior to that in the subject property, a negative adjustment is required to make that item equal to that in the subject property. Conversely, if an item in the comparable property is inferior to that in the subject property, a positive adjustment is required to make that item equal to that in the subject property. If an item in a comparable property is equal to that in the subject property, no adjustment is required.

Individual adjustments that are excessively high are **explained** by the appraiser.

The appraiser research the market and select the **most comparable sales that are available** for the subject property, adjusted them to reflect the reaction of the market to the differences (except for sales and financing concessions) between the comparable sales and the subject property, **without regard for the percentage or amount of the dollar adjustments.**

Adjustment Factors:

Please note that adjustment factors are based on the sales comparison analysis or modified cost to determine the contributory value of specific marketability factors for the subject. The appraiser would assert that regression analysis is not feasible during the normal course of business to determine factors such as GLA and basement adjustments as MLS and MLS do not typically provide accurate representations of the characteristics. Consequently, adjustment factors are based on the sales comparison analysis or modified cost to determine the contributory value of specific marketability factors for the subject.

Comparable Weighted Analysis:

The appraiser applied the most weight to comparable one, comparable property two received the second amount of weight, and comparable three received the least amount of weight.

Summary Comment:

During this assignment, we reviewed numerous sales and listings of comparable single family residences in the subject. The transaction chosen, while not a complete list, are believed to be indicative of market transactions of properties like the subject.

Final Reconciliation:

This appraisal report and its conclusions have been prepared in conformity with guidelines set forth by the uniform standards of professional appraisal practice (USPAP).

The Sales Comparison Analysis is given the most weight because it best reflects the actions of buyers and sellers in the market. The Cost Approach is a supportive approach, particularly with newer property. This is attributed to the difficulty in estimating accrued depreciation of older homes. The Income Approach to value is not considered appropriate because single-family dwellings are typically not purchased for their income producing potential.

Competency Provision:

The appraiser is qualified and feels competent to perform this type of appraisal. The appraisal certifies the education, experience and knowledge are sufficient to complete this appraisal assignment.

Comments and Conditions of Appraisal

When applicable, the laser signatures used in this report are representative of, and as valid as, original signatures.

This is a "appraisal report" written for estimating market value. The inspection of the subject property was not intended to be a structural or expert building inspection.

The appraiser did not consider any personal property as part of the "whole interest" being appraised. No value was given to any personal property.

The reader of this appraisal report must consider the entire report including all referenced addenda for the conclusions to be valid. This total report will be invalid and all value estimates will be invalid if the reader relies on only a portion of the report without considering the entire report.

Possession of this report or a copy of this report does not carry with it the right of publication. Neither all nor any part of the contents of this report shall be conveyed to any person or entity other than the appraiser's or firm's client, through advertising, solicitation materials, public relations, news, sales or the media without the written consent and approval of the author, particularly as to valuation conclusions, the identity of the appraiser of firm assumes no obligation, liability, or accountability to any third party. If this report is made available to a third party, the client shall make that party aware of all the assumptions and limiting conditions of the appraisal assignment.

No, employee, director, officer, or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender has influenced or attempted to influence the development, reporting, result of review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manor. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically.

General Purpose Appraisal Report Forms (GPAR)

The appraiser has been engaged to form an opinion of value. If subsequent developments of disagreements should arise, users of this appraisal agree that the appraiser may not be held liable for damages in excess of the amount he/she was paid for doing the appraisal.

Acceptance of, and/or use of, this appraisal report constitutes acceptance of the above conditions.

Restricted Appraisal Reports:

Note: The use of this report warms that the rationale for how the appraiser arrives at the opinions and conclusions set forth in the report may not be understood properly without additional information in the appraiser's work file.

Intended Users:

The intended user of this appraisal report is stated on the lender/client line in the report. Use of this appraisal by others users is not intended by the appraiser, unless otherwise identified by the client as being an intended user. All other third parties are considered to be unintended users and the appraiser assumes no obligation, liability or accountability to any third party and potential buyer or outside lender contemplating purchase or mortgage activity on this property is urged to seek a separate opinion of value from a competent and duly licensed/certified appraiser.

Intended Use of this Report:

The intended use of this appraisal as stated in the report form is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction. No other intended uses have been communicated and none are assumed pursuant to USPAP. This appraisal is developed strictly and solely in accordance with those intended uses communicated to the appraiser at the time of engagement.

	Supplemental Addendum	File No. 24-08-05

20305 Highway M		
Curryville	County Pike	State MO Zip Code 63339

Please note that only a primary lending institution can make a decision with respect to a mortgage finance transaction. Non-lenders and secondary market participants do not make these decisions and their uses, if any, have not been communicated to me the use of this appraisal report for other than the specific purpose shown in the appraisal report is adequate grounds for report to be considered NULL and VOID.

Appraiser's Statement:

HNB National Bank

Curryville

Borrower

City

Property Address

Lender/Client

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

Level of Visual Inspection:

Complete visual inspection of the interior areas of the subject property: A visual observation from standing height of the accessible areas and unobstructed, exposed surfaces of the living area without removal or personal possessions. It includes the visual observation of attached automobiles storage, in any as well as of any attached accessory building judged by the appraiser to have contributory value. This includes visual observation of the basements, crawl spaces and attics, if accessible.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- 7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

File No. 24-08-05

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

USPAP ADDENDUM File No. 24-08-05 Borrower Bomke, Kraig E. & Pat S. Property Address 20305 Highway M City State MO Zip Code 63339 County Pike Curryville Lender **HNB National Bank** This report was prepared under the following USPAP reporting option: Appraisal Report This report was prepared in accordance with USPAP Standards Rule 2-2(a). Restricted Appraisal Report This report was prepared in accordance with USPAP Standards Rule 2-2(b). Reasonable Exposure Time My opinion of a reasonable exposure time for the subject property at the market value stated in this report is: Research indicates property values in this area are stable at this time. There appears to be a equal supply of available housing in the immediate area beyond current demand. The immediate marketplace contains a substantial amount of new housing which is currently being discounted to appeal to buyers. This in turn affects existing homes competing to sell or to valuate based on the current pricing available to buyers. Marketing time for the area is predominantly 0-3 months. No loan discounts, interest buy downs, or concessions currently exist that would negatively affect marketability of the subject property. **Additional Certifications** I certify that, to the best of my knowledge and belief: X I have NOT performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. I HAVE performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below. - The statements of fact contained in this report are true and correct. - The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions. - Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties - I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment. - My engagement in this assignment was not contingent upon developing or reporting predetermined results. - My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal. - My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared. - Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report. - Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report). **Additional Comments**
