

# 73.85 ACRES, BROWN COUNTY, KS

*For Sale*

Excellent Bottom Farm with a NCCPI overall rating of 71.5 on the tillable acres. In 2023 this farm raised over 220 bu. corn per acre, and is a high producer year after year . This farm in a wet spring like we have had will have a few small ponding areas, But It Is Not a WET FARM. The soybean crop got off to a slow start because of a later planting date and untimely rains, but is now filling in nicely and will be a respectful yielding crop in 2024.. This farm is on a hard surface road and has great market access. Now is a great time to start planning for the 2025 crop. It will make a great first-time buyer farm, or a great addition to your present operation.
