Brokers Notes: What an opportunity!! This property is a very well taken care of. The current owners recently thinned the trees to predominantly Oaks and Walnuts. A small creek flows thru the property and to the owners knowledge has never gone dry (40+ years). A good steel panel corral with sorting pens and a load out area. The barn is in fair condition and very adequate for storage. There are deer and turkeys on the property along with many other critters. From Hollenberg KS go north on Thunder Rd. to the Nebraska line, then 1 more mile north on 578 Ave. this is the Southwest corner of the property.
